

Ray-Ban® at Lesley Arkin Optometrist – Stony Stratford, Milton Keynes

Lesley Arkin Optometrist is pleased to announce that we have achieved **Ray-Ban® Certified Dealer Status**. This means that we are one of the very few practices in the region authorized to sell and dispense *Ray-Ban®* glasses and sunglasses.

Ray-Ban® is one of the leading eyewear brands. Famous for their *Ray-Ban®* sunglasses, with the original **Aviator** model created for American Air Force pilots.

Prescription and non-prescription Ray-Ban® sunglasses in the iconic *Ray-Ban®* range, including the original and the new **Wayfarer** are available. Our Dispensing Opticians can help you choose the style of frame to suit you and your lifestyle. If you need prescription lenses they will also advise the best tints for reducing glare and enhancing contrast.

Prescription Optical Ray-Ban® glasses that incorporate the style and design that have made the brand what it is today are available in store for both Ladies and Gents to try on.

Ray-Ban® sunglasses and optical glasses mean quality, style and exceptional value. They are one of the most popular sunglass brands in the world. The classic Aviator shape is still iconic, as is the robust Wayfarer, which now form a small part of the extensive *Ray-Ban®* collection.

You can now view and try on the *Ray-Ban®* range in Stony Stratford at Lesley Arkin Optometrist.

Ray-Ban® is registered trademark of Luxottica Group S.p.A.
